

To whom it may concern,

I realize that by governing what is available to us through TV and Radio, the FCC is doing its best to make certain that as much of the negative material is screened out as is humanly possible. However, I am very concerned about the proceeding listed above as it may very well do away with Air 1 being heard in our area. Air 1 is a very positive influence and should this resolution be enacted it could very well be replaced with something that would most certainly not be as positive and might even undo all the good Air 1 has worked so hard for thus far.

This is disturbing because it is very positive, and I think in this day and age we need as much positive reinforcement in our communities as possible. Not only do they provide news with a POSITIVE spin, but they also offer a message that is fundamental to the very existence of the United States of America; The right to worship and believe as you want without the fear of persecution.

I myself know many people that would be very unhappy should Air 1 be forced off the air. I know that there are many people that do not have access to the internet that worship by listening and absorbing the positive message that Air 1 offers to us 24 hours a day, 365 days a year. To take that away, at least in my mind, would be a clear violation of the 1st Amendment.

I know that we as US citizens can work to a common resolution where all parties involved are equally served. This is why we are the GREATEST nation on Earth. Your attention and careful consideration in this matter is greatly appreciated.

Thanks and God Bless

Curt Sherrod
